

Common Name

Range	Live Sound
Retail Price Band	Under \$500
Requires	

Electrical Characteristics

Frequency Response	30Hz - 20kHz
Output Sensitivity	2.9mV/Pa
Max SPL	
Self Noise (CCIR)	
Self Noise (DIN/IEC)	
Output Impedance	200Ω
Recommended Load	1kΩ
Powering	
Supply Current	
Alternative Powering	

Switchable Options

Pad	
Filter/EQ	

Physical Characteristics

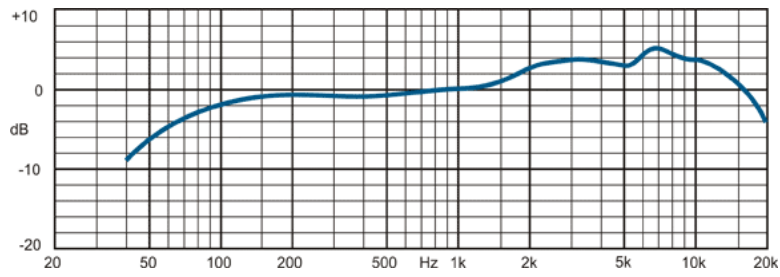

Connector	XLR-3M
Connector Notes	
Available Colours	Black
Weight	320g (11.26oz)
Length	181mm (7.12")
Min Diameter/Width	25.5mm (1.00")
Max Diameter/Width	48.5mm (1.90")
Depth	

Outstandingly sensitive dynamic microphone that gives superb response characteristics for vocals and high SPL instruments such as kick drum and saxophone. The basket shield is reinforced to stand rough handling and the microphone can also be used in the broadcast environment for announcers or EFP applications.

Accessories

Included	MKV 8 clip, zipped storage pouch
Optional	
Rycote shockmounts & windshields available for this microphone	

Frequency curve: Hypercardioid

Polar curve: Hypercardioid
